

Olives

REDONDILLA DE LOGROÑO

This is a minority variety in La Rioja, with low vigour and good oil quality. It is hardy.

DENOMINATION

Not known under any other name.

LOCATION

Old minority variety from La Rioja that is currently under a recovery program and study on its cultivation at a more global level in order to structure the personality of the oils within the D.O. of La Rioja.

AGRONOMIC CHARACTERISTICS

Low vigour and high resistance to cold temperatures in winter; therefore, it is a variety highly suited to the conditions in La Rioja and the Ebro valley.

MORPHOLOGY

Leaf: lanced shape, not very long.

Fruit: rounded, medium-sized fruit, without a nipple. Small, disperse lenticels.

Stone: round and symmetrical.

PRODUCT

High oil yield and quality. Blends well with the Arbequina variety.
