VIGOUR OF THE TREE	Good
GROWING HABIT	Semi-erect
POLLINATORS	Big Red®

### CHARACTERISTICS OF THE VARIETY

PREDOMINANT OUTER COLOUR	Orange
ORGANOLEPTIC QUALITIES	Sweet and aromatic
AVERAGE SIZE	3A dominant

\*The "Mean date of harvest" refers to the region of Perpignan (France).

NOTE 1: "Minimum order 300 units"

NOTE 2: "The fruit of any tree will change from farm to farm depending on the farmer's cultural practices, particularly with regard to pruning and fertilising, as well as differences in soil and climate variations. In vigorous young trees the date of ripening and fruit characteristics will differ from those of mature trees. Over time, the normal characteristics of the variety will develop as the tree matures. Over fertilising young trees to increase the vigour, can have a detrimental effect on the quality of the fruit and or the productivity"
