

Apricot

TORNADO®
EA 7016

Tornado® is a protected variety developed by Benoit Escande Edition in France.

AGRONOMIC CHARACTERISTICS

MEAN DATE OF HARVEST*	19 may
FLOWERING PERIOD	Semi-early
FLORIFEROUSNESS	Very good
VIGOUR OF THE TREE	Normal
PRODUCTION	Fast, with good fruit size in the first year of production
GROWING HABIT	Semi-erect
POLLINATORS	Big Red®

CHARACTERISTICS OF THE VARIETY

PREDOMINANT OUTER COLOUR	Orange with blush
SUGARS	14° Brix
ACIDITY	Very little acid
ORGANOLEPTIC QUALITIES	Very juicy
AVERAGE SIZE	3A/2A

*The "Mean date of harvest" refers to the region of Perpignan (France).

NOTE 1: "Minimum order 300 units"

NOTE 2: "The fruit of any tree will change from farm to farm depending on the farmer's cultural practices, particularly with regard to pruning and fertilising, as well as differences in soil and climate variations. In vigorous young trees the date of ripening and fruit characteristics will differ from those of mature trees. Over time, the normal characteristics of the variety will develop as the tree matures. Over fertilising young trees to increase the vigour, can have a detrimental effect on the quality of the fruit and or the productivity"
