

Wine Grapes

VIURA

Spanish variety. Very popular in Catalonia, where it is called Macabeo and it is used for making Cava.

PHENOLOGY

Late sprout.

CLUSTERS AND BERRIES

Large cluster. Medium-sized and yellow berry.

PESTS AND DISEASES

Sensitive to botrytis.

AGRONOMIC CHARACTERISTICS

Vigorous, upright growing. Sensitive to drought. Very productive; therefore, it requires a controlled pruning.

OENOLOGICAL CHARACTERISTICS

Produces dry, slightly acidic wines, which can be barrel-fermented. Widely used for producing Cava.
